

Efficient Web Tools

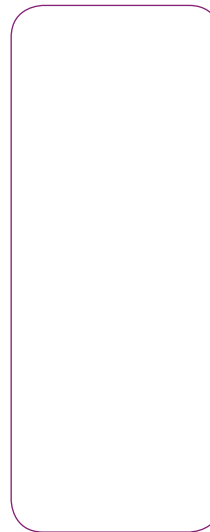

Hospice care team members involved in medication management are assigned unique codes to enter the Client Access section of the www.hpRxOptions.com web portal. hp RxOptions's web site boasts a user-friendly online system for management of patient eligibility and medication profiling.

Staff simply log-on from any web-enabled computer for 24/7 access to:

- Easily enroll new patients—**real time!**
- Profile medications on the hospice plan of care
- Update medication profiles
- Review your hospice's Formulary
- Locate a participating pharmacy
- View the hp RxOptions operations manual
- Download program materials and fax forms

The web-based portal provides additional functionality for Hospice Management:

- Ability to add/change user access
- On-line approval for non-formulary medications

The Way You Want It

BROUGHT TO YOU BY HOSPICE PHARMACIA
THE MARKET LEADER IN
HOSPICE PHARMACY SERVICES

The screenshot shows the 'Eligibility Add Form' interface. At the top left is a small image of a pharmacist. The logo 'hp RxOptions a service of excelleRx, Inc.' is at the top right, with contact information: 'info@hpRxOptions.com' and '866-602-HPRX'. Below the header, there are two dropdown menus: 'Select Office/Team' and 'Select Benefit'. The form contains several input fields: 'Member ID * (SSN or Medical Record #)', 'First Name *', 'Middle Initial', 'Last Name *', 'Address', 'Address 2', 'City', 'State' (dropdown), 'Zip', 'Date of Birth *', 'Phone', and 'Gender *' (dropdown). There is also a 'Diagnosis Code' dropdown. At the bottom, there are 'Submit', 'Exit', and 'Reset' buttons. A legend at the bottom left indicates that '*' denotes required fields and '**' denotes date format (MM/DD/YYYY).

About hp RxOptions

hp RxOptions is the easy and convenient way to contain your hospice's pharmacy costs. hp RxOptions is a system that creates efficiencies in medication billing and pharmacy administrative tasks and includes a network of over 56,000 local and chain pharmacies throughout the United States for medication access. With hp RxOptions, you control your hospice medications and may choose to establish and adjust your program's formulary as determined by your team. In addition, hp RxOptions provides medication utilization reports and superior customer service support 24/7.

Implementation

- Ease in PBM program switching or new initiation
- Trainer facilitated operations education for staff

...and more!

See the Difference

For more than 12 years hospices have turned to Hospice Pharmacia (HP) for comprehensive pharmacy service management. hp RxOptions was conceived and developed by the same industry leaders who created HP. hp RxOptions is designed for hospices who prefer to manage their own pharmacy services. The HP commitment to quality pharmacy services is carried forward in hp RxOptions, the hospice-managed service model.

When evaluating pharmacy service options, consider hp RxOptions! The knowledgeable business team at hp RxOptions will work with you to assess your needs and create a program that's right for you.
